

Raughton Head CE Primary School - Music Development Plan 2024-2025

Our Vision for Music

We encourage our pupils to engage in the highest forms of creativity. As musicians, children will be exposed to the highest quality music education in order to inspire a love for music and increase self-confidence. Progressing through the school, children will develop the skills to compose their own music and play a wide variety of musical instruments with increasing accuracy. Through the high-quality music provision, children learn to use their voices expressively by singing many different songs and also have the opportunity to play different musical instruments. Through regular performances in whole school singing events and by playing instruments in front of an audience, children gain many skills including self-confidence.

Area	Category	Actions	Deadline	Evaluation/Monitoring
